

# Pres-Quick®

## Pressure Sensitive Envelopes

Pres-Quick® LPS Industries has been manufacturing and supplying pressure sensitive envelopes for more than 35 years. Our *specially formulated hot melt adhesive* insures that Pres-Quick envelopes bond *instantly* to boxes, cases, tubes and other containers.

### Pres-Quick® Pressure Sensitive Packing List Envelopes

**Back Loader:** (coded BL) This style keeps documents secure in transit because they cannot be removed without destroying the envelope.

**End Loader:** (coded EL) In this construction, the envelope allows documents to be easily removed and reinserted.

**Recessed Face:** (coded RF) The envelope face is made shorter than the back so that documents such as IBM, warehouse or tracking cards can be easily inserted and retrieved.

**Special Tape:** (coded ST) This feature allows the envelope to be repeatedly opened and securely sealed to readily access documents. Specially good for international shipments

#### Environmentally Friendly Pres-Quick® Pressure Sensitive Packing List Envelopes

Two Sizes, Two Styles:

Size: 4-1/2" x 5-1/2" O.D.

- PQGREEN-12 (Quarter Face Printed)
